

Project
“CareerFlow AI”

Name: Simaab Malik , Nimra Tariq

Sap Id: 54910 , 54909

Semester: SE-6

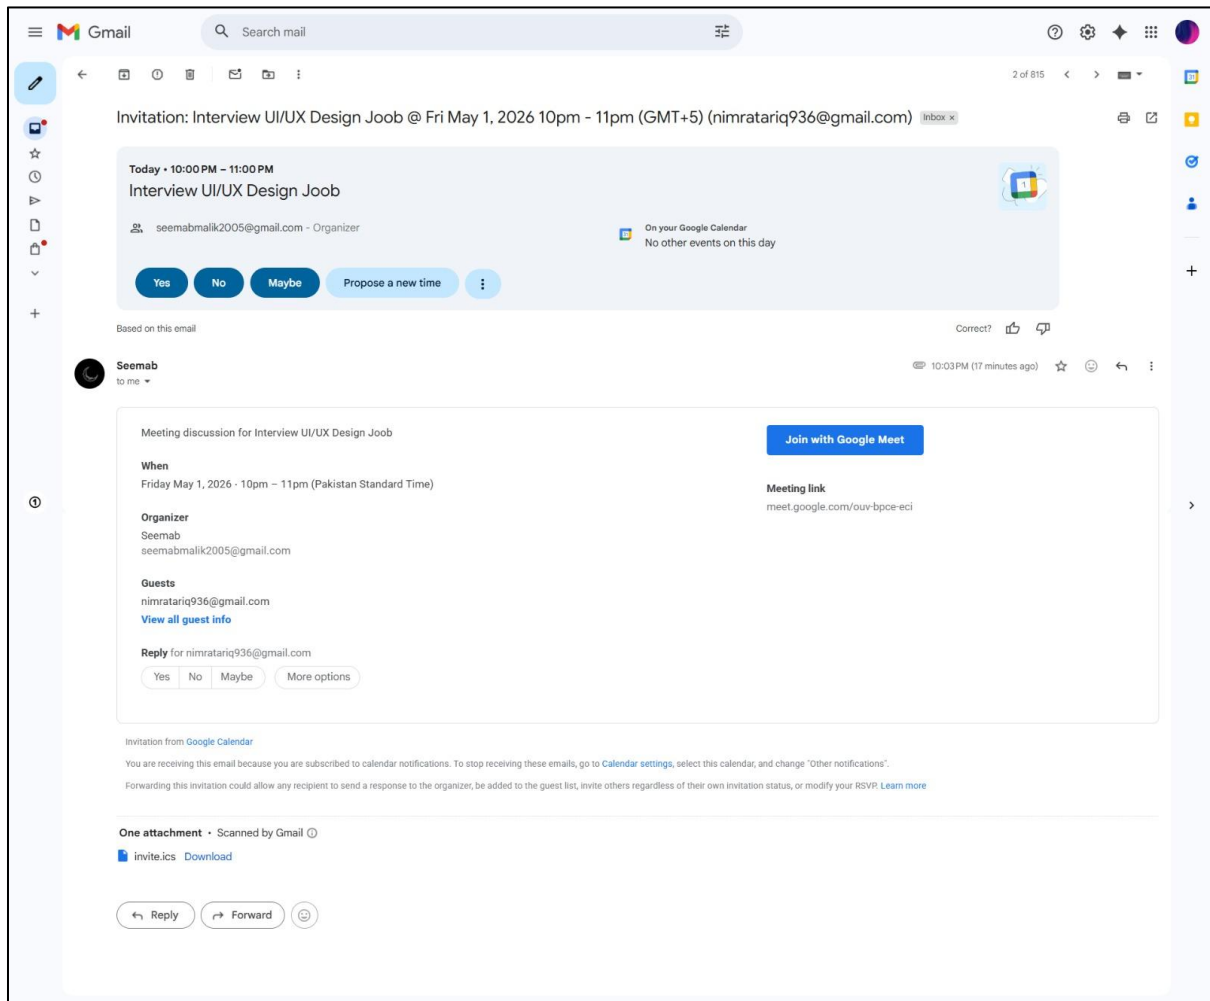

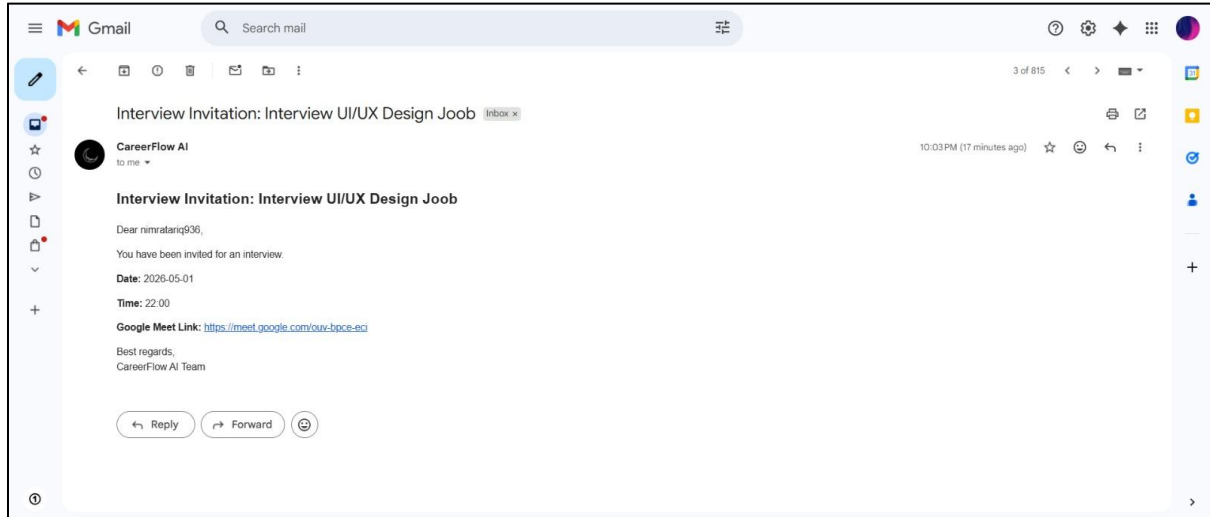

Submitted To: Ma'am Habiba Khatoon

Course: Generative AI

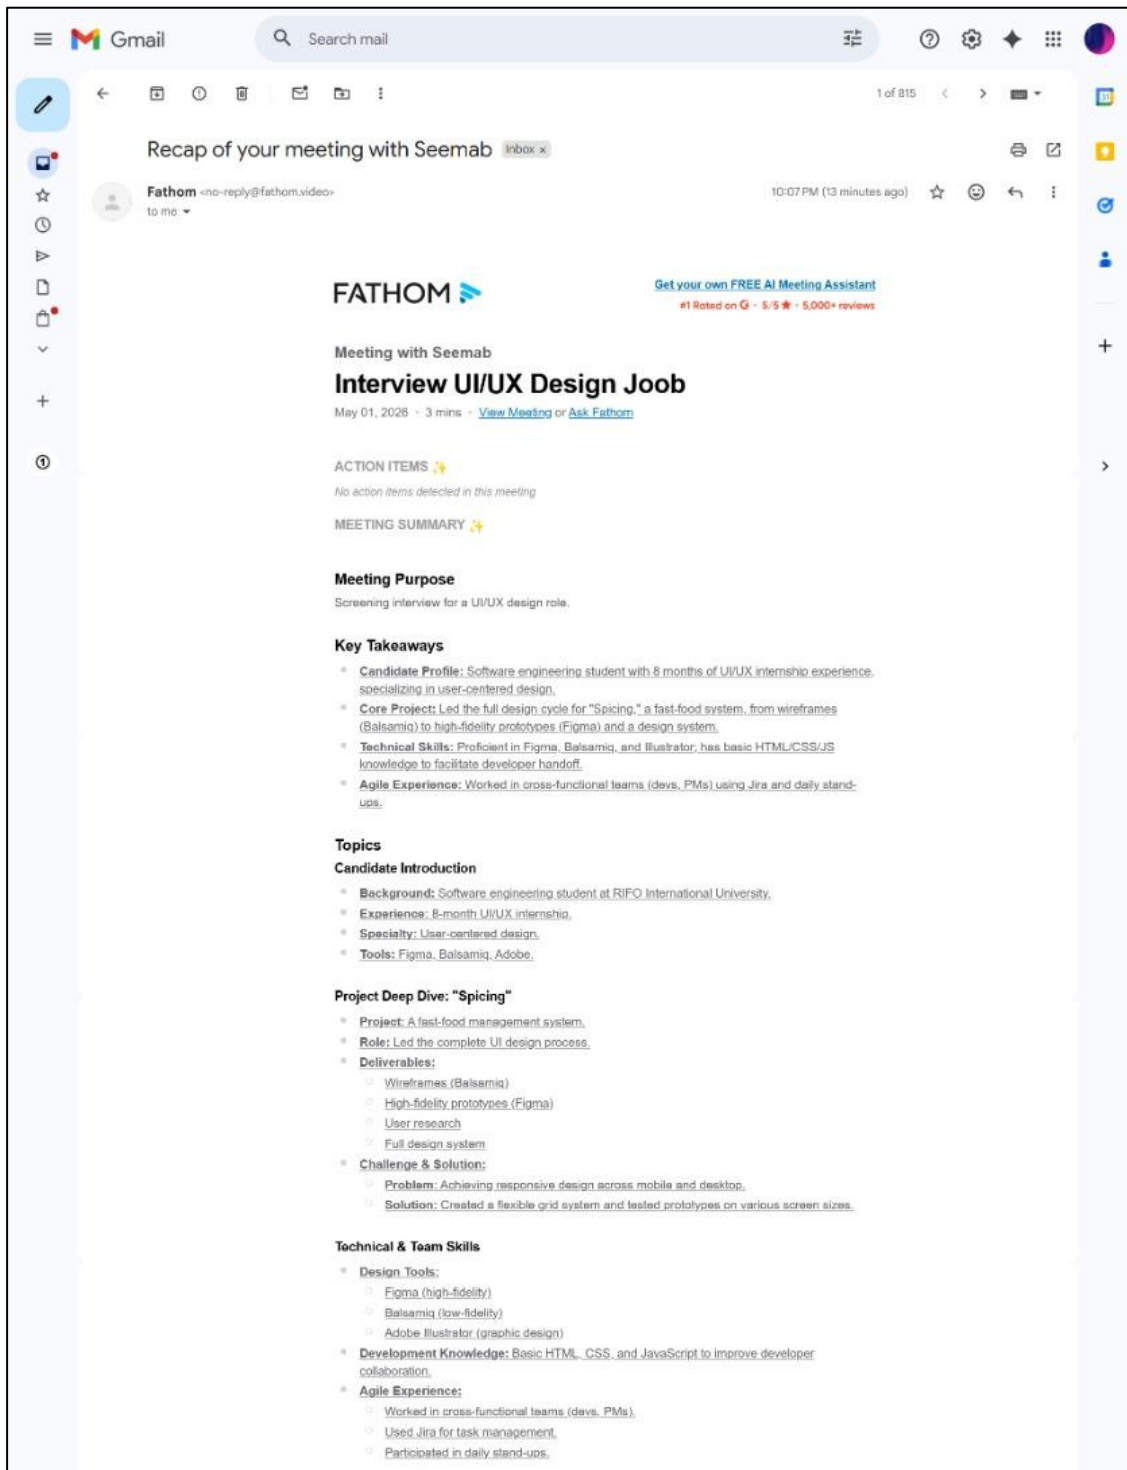

Date: 1st May, 2026

Email Received by the Candidate

➤ When the candidate are invited for the meeting, they receive Emails like this:

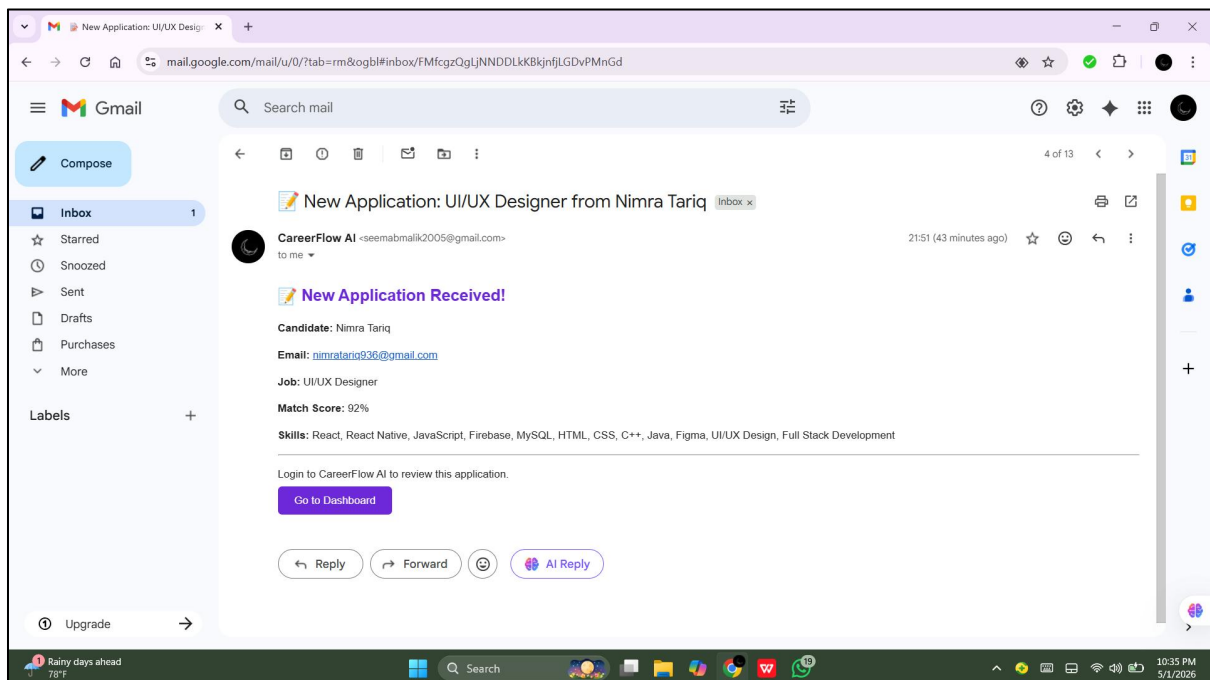

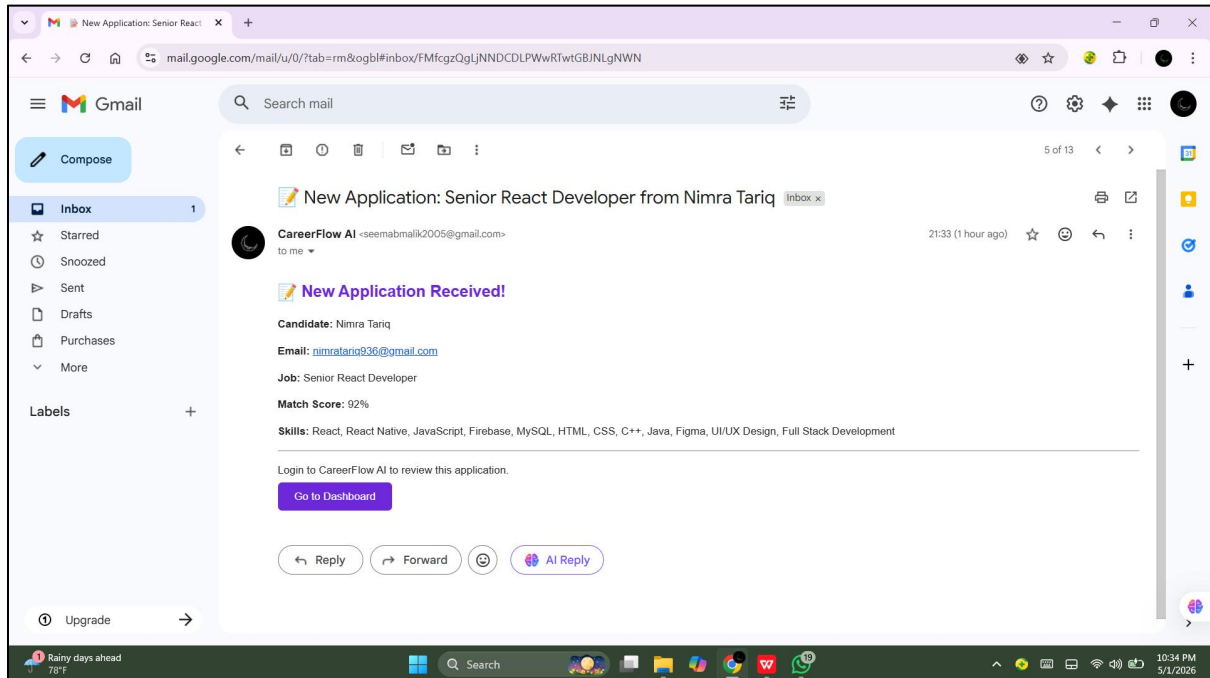

➤ The summary generated by the Fathom tool to the Candidate, is received like this:

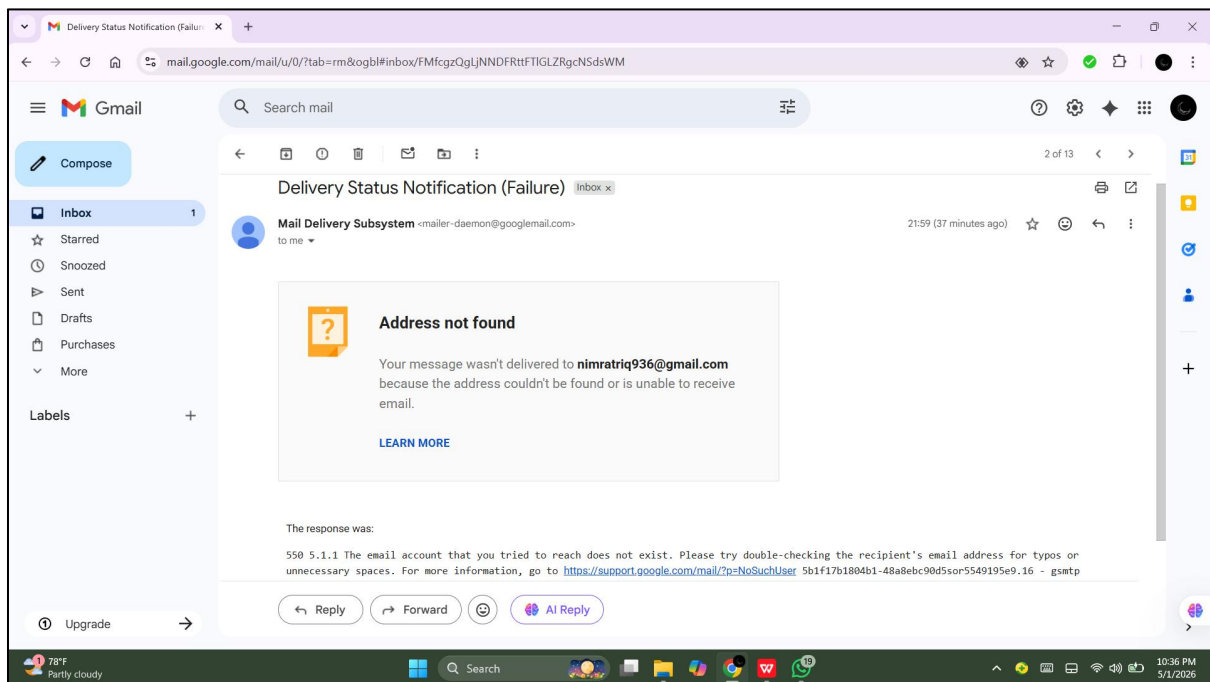

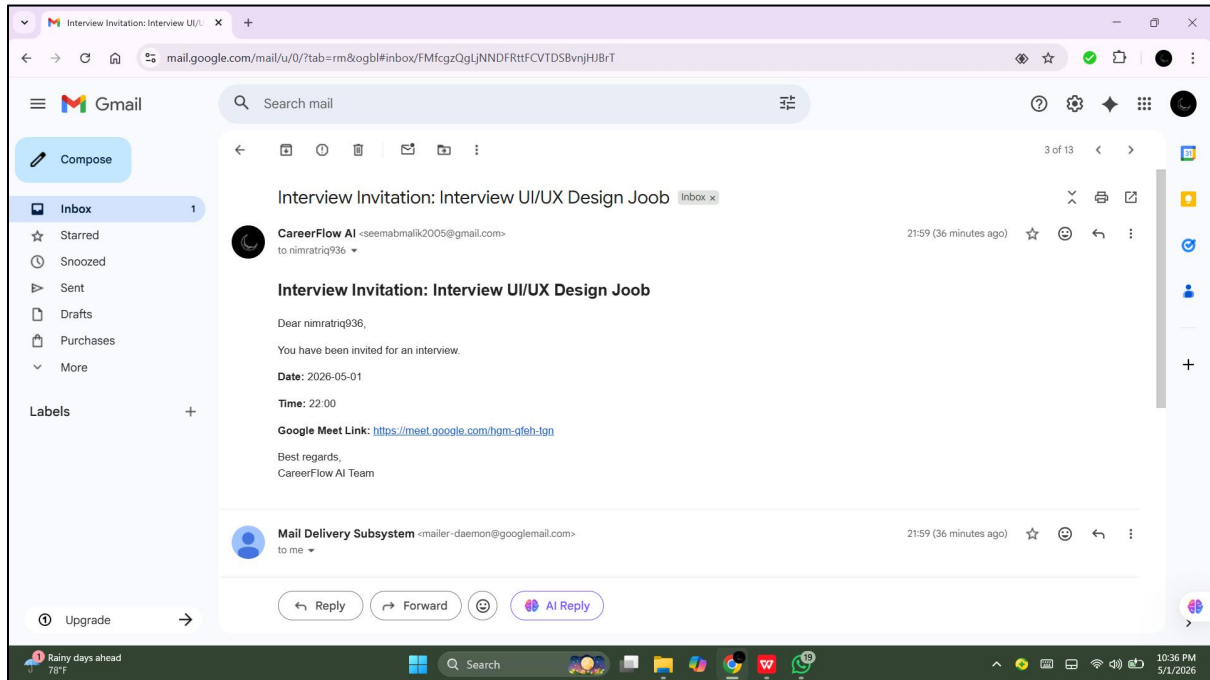

Email Received by the Hirer

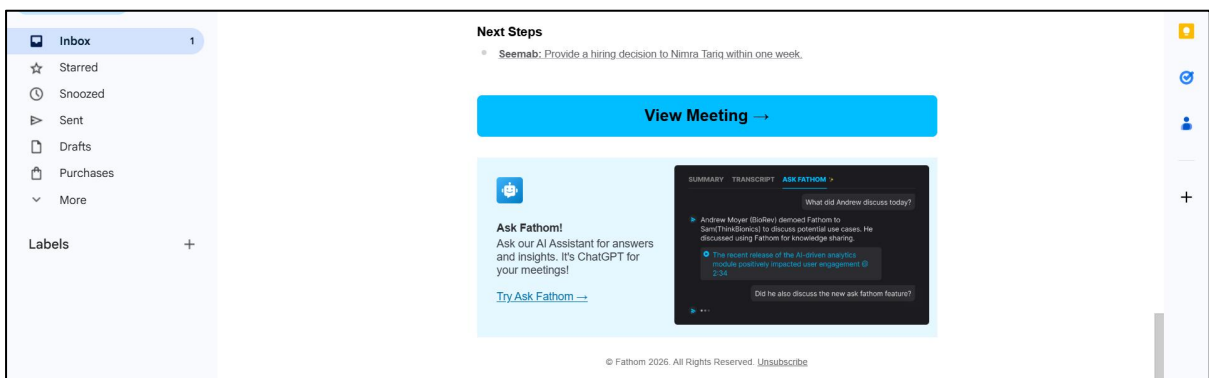

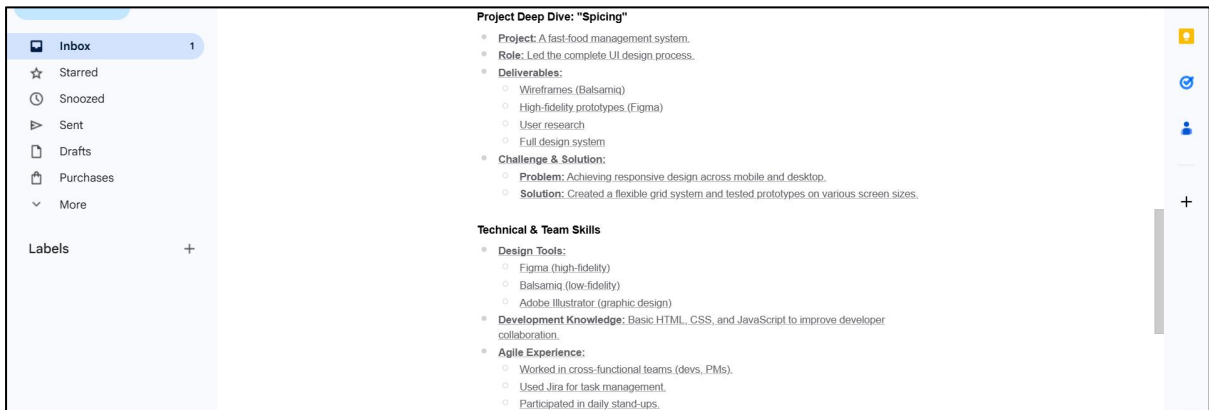

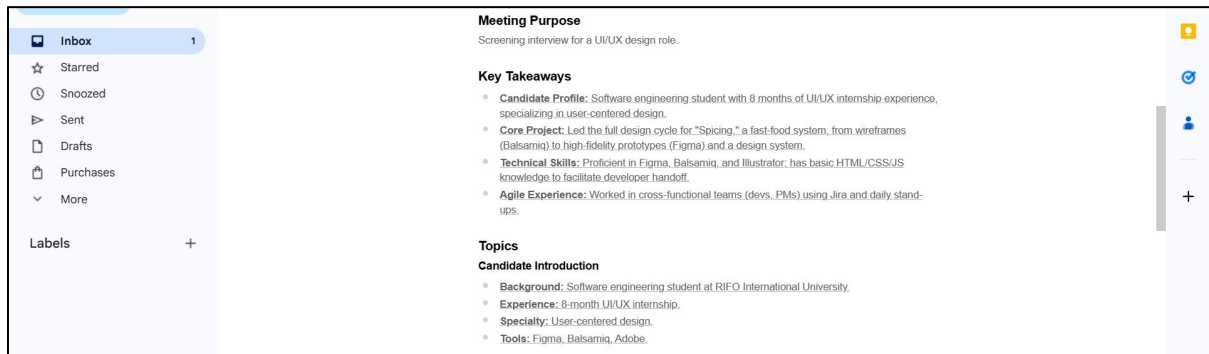

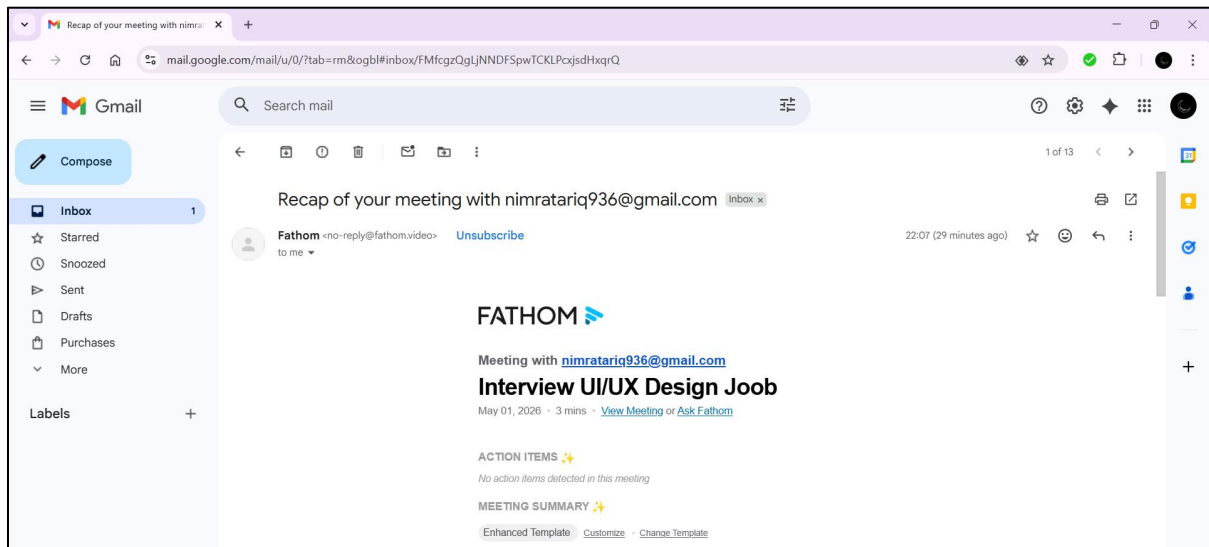

➤ When the Candidate apply for a job, the Hirer receives an email like this:

- When the Hirer generate a meeting with the wrong information, then the email is like this:

➤ The summary generated by the Fathom tool to the hirer, is received like this:

DataBase Of CareerFlow-AI

➤ Candidates Application:

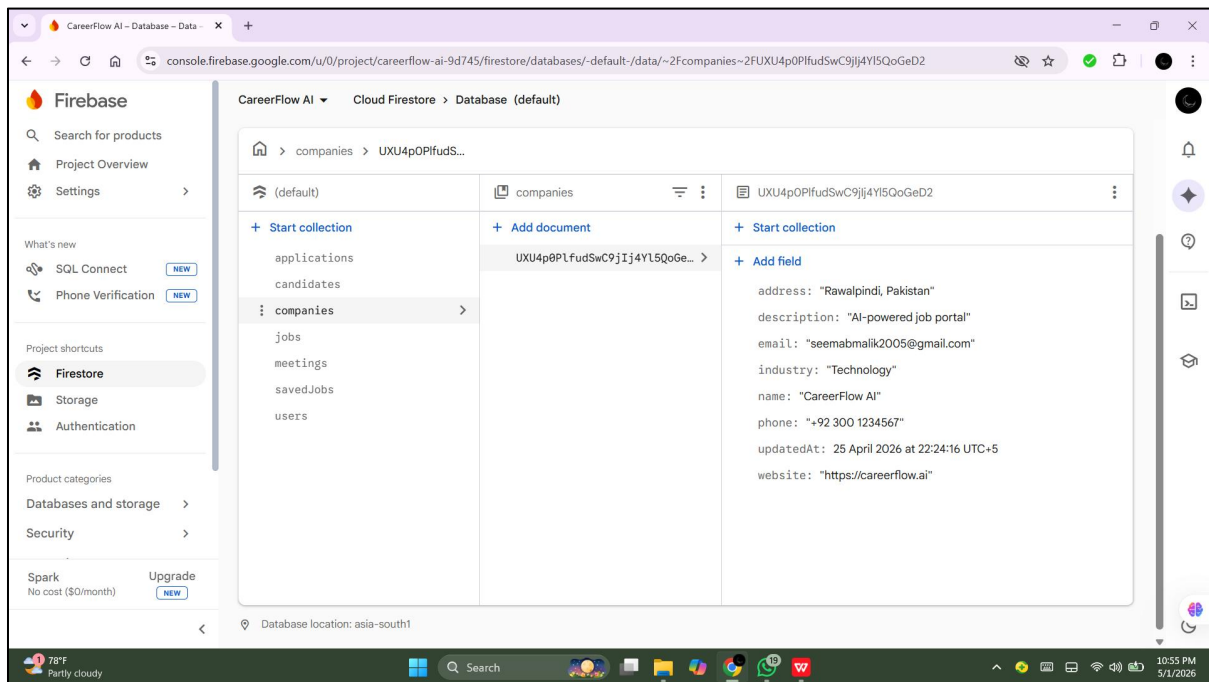

The screenshot shows the Firebase console interface. On the left, there's a sidebar with navigation options like 'Search for products', 'Project Overview', 'Settings', and 'What's new'. The main area displays the 'applications' collection in the 'klnCoZANTW4i3LlpqI2t' database. A document is selected, showing fields such as 'age: 22', 'appliedAt: 1 May 2026 at 21:51:07 UTC+5', 'candidateEmail: "nimratariq936@gmail.com"', 'candidateId: "cZAwxuHzSeMQEvJCubLbW8SdNnp1"', 'candidateName: "Nimra Tariq"', 'city: "Rawalpindi"', 'coverLetter: "I'm Capable of designing amazing UI"', 'experience: "2"', 'jobId: "W6fXGCKRT41nebNIWxvR"', 'jobTitle: "UI/UX Designer"', 'matchScore: 92', and 'skills'.

This screenshot shows the 'skills' field from the previous document. It is an array of 11 skills: 'React Native', 'JavaScript', 'Firebase', 'MySQL', 'HTML', 'CSS', 'C++', 'Java', 'Figma', 'UI/UX Design', and 'Full Stack Development'. The 'status' field is also visible, set to 'accepted'.

➤ Candidates Profile:

The screenshot shows the Firebase console interface. On the left, there's a sidebar with navigation options like 'Search for products', 'Project Overview', 'Settings', and 'What's new'. The main area displays the 'candidates' collection in the 'cZAwxuHzSeMQEvJCubLbW8SdNnp1' database. A document is selected, showing fields such as 'age: 22', 'city: "Rawalpindi"', 'education: "BS Software Engineering"', 'email: "nimratariq936@gmail.com"', 'experience: "2"', 'name: "Nimra Tariq"', 'phone: "0300 1234567"', 'skills: "React, React Native, JavaScript, Firebase, MySQL, HTML, CSS, C++, Java, Figma, UI/UX Design, Full Stack Development"', 'university: "Riphah International University Islamabad"', and 'updatedAt: 1 May 2026 at 21:48:02 UTC+5'.

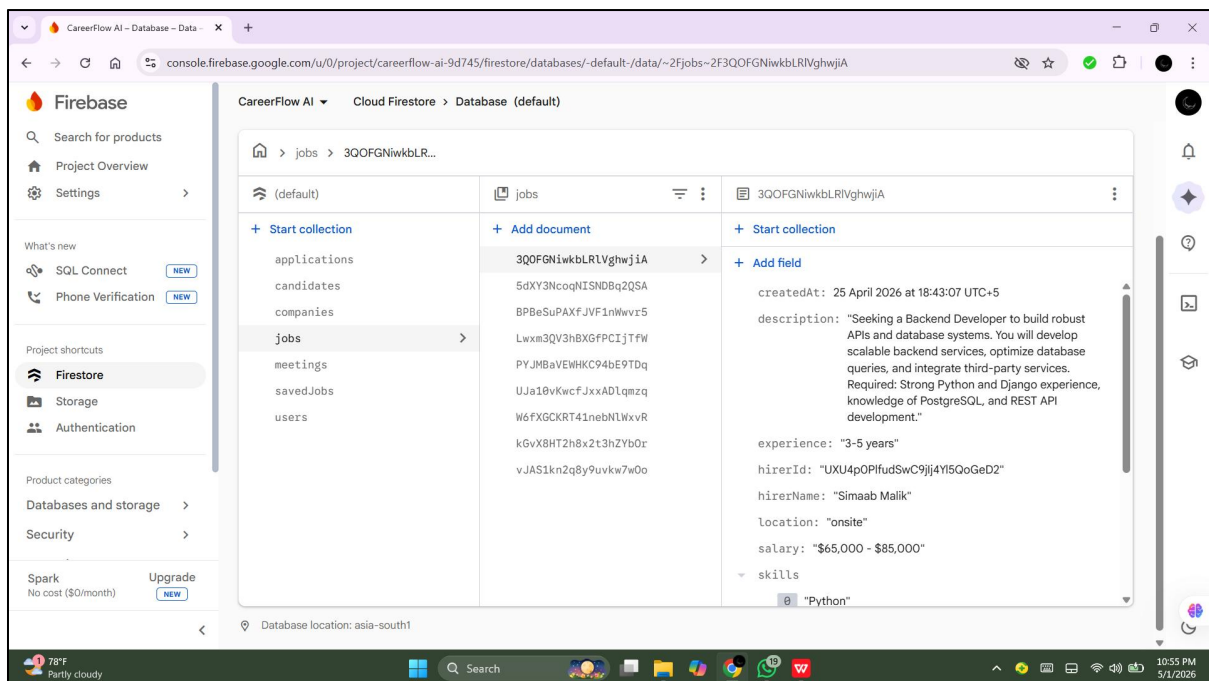

About the Company:

The screenshot shows the Firebase console interface. On the left, there's a sidebar with navigation options like 'Search for products', 'Project Overview', 'Settings', and 'What's new'. The main area displays the 'CareerFlow AI' database structure. The 'companies' collection is selected, showing a list of documents. One document is expanded, revealing fields such as 'address', 'description', 'email', 'industry', 'name', 'phone', 'updatedAt', and 'website'.

Collection	Document ID	Fields
companies	UXU4p0PfudSwC9jj4Yl5QoGeD2	address: "Rawalpindi, Pakistan", description: "AI-powered job portal", email: "seemabmalik2005@gmail.com", industry: "Technology", name: "CareerFlow AI", phone: "+92 300 1234567", updatedAt: "25 April 2026 at 22:24:16 UTC+5", website: "https://careerflow.ai"

All Jobs posted by Hirer with detail:

The screenshot shows the Firebase console interface. On the left, there's a sidebar with navigation options like 'Search for products', 'Project Overview', 'Settings', and 'What's new'. The main area displays the 'CareerFlow AI' database structure. The 'jobs' collection is selected, showing a list of documents. One document is expanded, revealing fields such as 'createdAt', 'description', 'experience', 'hirerId', 'hirerName', 'location', 'salary', and 'skills'.

Collection	Document ID	Fields
jobs	3Q0FGNiwbLRlVghwjIA	createdAt: "25 April 2026 at 18:43:07 UTC+5", description: "Seeking a Backend Developer to build robust APIs and database systems. You will develop scalable backend services, optimize database queries, and integrate third-party services. Required: Strong Python and Django experience, knowledge of PostgreSQL, and REST API development.", experience: "3-5 years", hirerId: "UXU4p0PfudSwC9jj4Yl5QoGeD2", hirerName: "Simaab Malik", location: "onsite", salary: "\$65,000 - \$85,000", skills: ["Python"]

➤ All Meeting details:

The screenshot shows the Firebase console interface. On the left, there's a sidebar with navigation options like 'Search for products', 'Project Overview', 'Settings', and 'What's new'. The main area displays the 'meetings' collection under the 'default' database. A specific document is selected, showing its details:

- Document ID:** eq4noqd2AtOCWvUEs41
- Fields:**
 - attendees: "simbamalik5@gmail.com"
 - createdAt: 28 April 2026 at 11:50:05 UTC+5
 - meetLink: "https://meet.google.com/ye-ydye-hut"
 - meetingDate: "2026-04-28"
 - meetingTime: "11:42"
 - organizerId: "UXU4p0PifudSwC9lj4Yl5QoGeD2"
 - organizerName: "Simaab Malik"
 - summary
 - action_items
 - assignee: "Seemab"
 - deadline: "Within the next 3 days"

➤ All Users:

The screenshot shows the Firebase console interface. On the left, there's a sidebar with navigation options like 'Search for products', 'Project Overview', 'Settings', and 'What's new'. The main area displays the 'users' collection under the 'default' database. A specific document is selected, showing its details:

- Document ID:** cZAwXuHzSeMQEvJCubLbW8SdNnp1
- Fields:**
 - createdAt: 25 April 2026 at 20:35:24 UTC+5
 - email: "nimratariq936@gmail.com"
 - name: "Nimra Tariq"
 - role: "candidate"
